## BONNEY ADJUSTABLE "S" NUT WRENCH

BONNEY Adjustable " $S$ " NU'T' Wrenches are designed, primarily". for utility, but in their construction every care has been taken to produce not only strength and durability, but also balance and beauty. The sliding jaw is a drop-forging and the long or fixed jaw is made of the highest grade of malleable iron. All parts are interchangeablc. The handle is finished in bright black enamel and the jaws are polished.

## BONNEY ADJUSTABLE "S" PIPE WRENCH

13ONNEY Adjustable " 5 " Pipe Wrenches are similar in material and finish to the Adjustable " $s$ " Nut Wrenches described on the opposite page. The sliding jaw, however, is milled with teeth correctly eut to grip both pipe and round iron, and the long jaw is constructed on an angle of correct degrec to prevent loeking of the wreneh when used on particularly difficult work. As in the case of the Adjustable "S" NU'T Wrench the parts are interchangeable and the milled jaw can be replaced without diffieulty.

## BONNEY COMBINATION PIPE AND NUT WRENCH

No. 43 Bright, Short Nut

This wrench is strongly and carefully made, is thoroughly tested in every way and is warranted perfect in material and workmanship. The long jaw and shank is a solid drop-forging. The slide is of highest grade malleable iron and the toggle is drop-forged of speeial analysis tool steel.

All parts are properly hardened and are interehangeable with BONNEY and similar wrenehes. It is especially adapted to the uses of Farmers and Oil-well Operators, to whom the added weight of separate tools would be partieularly undesirable.

## LIST PRICE, No. 43, SHORT NUT

| Size | Capacity | Price per doz. | Weight per doz. |

## BONNEY COMBINATION PIPE AND NUT WRENCH

No. 45, Bright, Long Nut

Combination Wrenches Nos. 45 and 46 arc cxactly the same in every particular as Nos. 43 and.44, with the one exception that the adjusting nut is made in the form of a knurled sleeve instead of the short nut. The knurled sleeve forms a covering for the screw on which the adjusting nut operates and thus protects the thread from bruises and other damage which might easily happen to the serew, by either dropping the wrench on stone or cement or by dropping some heavy article on the wrench.

LIST PRICE No. 45, LONG NUT

| Size | Capacity | Price per doz. | Weight per doz. |

THE "MASTERPIECE" WRENCH

## Combination Pipe and Nut Wrench and Pipe Cutter

The MASTERPIECE Wrench is similar in eonstruction to the BONNEY Combination Wrenches, but is designed to do even more work than the Combination Wrench for the reason that it eontains one additional very useful feature, namely, the PIPE CUTTING ATTACHMENT. This attaehment eonsists of a drop-forged toggle, milled and drilled to hold firmly an eccentrie eutting wheel. The eceentrie construction of the wheel makes it possible to eut through the average pipe in a very few turns, as every time the high side of the wheel eomes in contact with the pipe it makes a deep cut, while a half turn of the adjusting nut, when the wheel is on the low side, will tighten the cutter for the next turn.

The toggle also contains the pipe jaw whiel is carelully milled and hardened to withstand the roughest nse and abuse. When the toggle is in position to turn pipe it rests against a strong spring, which gives it the same action as an individual pipe wrench.

The long jaw is ruade of drop-forged steel and the frame of highest grade malleable iron. Both are correctly hardened and warranted to be absolutely perfect in both material and workmanslip.

## BLACK No. 1

## BONNEY MALLEABLE GENERAL PURPOSE WRENCHES

These Wrenches are made of the trighest grade malleable iron, which gives plenty of strength for any ordinary purpose, and are carefinly finished with polished heads. Each set consists of five wrenches, ten openings, packed in a strong individual carton, aud there are 'lwo Dozen Sets to the Cise.

Witlm each case is enclosed, lPREE OF CHARGE, a SHOP CAP and a Sample "BONNFI BOX TOOL", whieh is strong enough to open the heaviest ease, but so small that it can be convenientle: carried in the pocket.

These Wrenches should be sold over the cominter at not kess than Fifty Cents a set. In Canada and the Far West the retail price is Seventy-five Cents per set.

Price per case, $\$ 19.00$. Weight per ease, 60 lhs.

These Wrenches are made of the same strong material as our Malleable General Pupose Wrenches: namely, of the highest grade of malleable iron carefully east so that they are strong, tough and practically unbreakable. The heads are polished.

Lach set eonsists of six wrenehes, twelve openings, ranging from $3 / 8^{\prime \prime}$ to $11 /\left.\right|^{\prime \prime}$ by sixteentlis: paeked one set to a carton, Twenty-four Sets to a Case.

Inchuded with each case of twenty-four sets, FREE OF CIIARGE, is a SHOP CAP and a sample BONNEY "JACK RABBIT" WRENCH, a very handy tool, light yet serviceable, containing openings for eight different sizes of muts.
'These sets shonld be sold over the counter at not less than 50 cents a set, 75 cents a set in the Far West and Canada.

Price per case, $\$ 19.00$. Weight per case, 5.5 lb .

## BONNEY MALLEABLE_MACHINERY WRENCHES

## Double Head $15^{\circ}$

Bomney Malleable Machinery Wrenches are made of the same high grade material as Bonney Malleable General Pupose Wrenches. They are designed for use of such customers as prefer a $15^{\circ}$ angle wrench to a $22 \frac{1}{2}^{\circ}$ angle wrencl. They are slightly shorter than the wrenches for the same size openings in the General lurpose Series but are equally as strong and as well made. These should be sold at 50c. per set of six, at retail, exeept in the far west and Canada. Packed for domestic trade, twenty-four sets to the case, as shown on preceding page.

## THE "VIXEN" WRENCH

The "Vixen" Wrench is designed as a handy pocket tool for use around the farm or automobile. The two ends are milled with teeth of eapacity to turn pipe from $\frac{1}{4}^{\prime \prime}$ to $1^{\frac{1}{4}}{ }^{\prime \prime}$. The tapped holes in the center are made to restore or clean threads on bolts that have become bruised or battered. The openings are not intended to be used for eutting new threads. Vixen Wrenches are made in three finishesBlıe, White Nickel and Full Nickel. All finishes are drop-forged, ground, polished and hardened. Furnished in U. S. Standard or Whitworth Threads. Length over all, $73^{3 \prime \prime}$.

> U. S. STANDARD THREADS $5 / 6-18,1 / 2-13,3 / 8-16$
> WHITWORTH THREADS $5 / 6-18,1 / 2-12,3 / 8-16$

| Finish | Weight per doz. | Price |
| :---: | :---: | :---: |
| Blue. | 11 lbs. | \$5.00 per doz. |
| White Nickel. | 11 " | 7.00 " |
| Full Nickel. |  | 9.00 |

Packed $\frac{1}{2}$ doz. in cardboard box.

## ALWAYS READY WRENCHES

## Nickel Plated

These wrenches are drop-forged from special wrench steel, are carefully ground and polished and are hardened to withstand the severest strain. They have a large range of openings and for their compactness are very handy pocket tools.

The nickel plating is absolutely the best and is guaranteed not to chip or peel.

| $\mathbf{1}$ | $3+\mathrm{lbs}$. | 50 lbs | $30 \frac{1}{4} \times 13 \times 6 \frac{1}{2}$ |

Champion Vises are made especially for the most particular tool users and are warranted against defects and breakage.

They are manufactured in sizes from $1 \frac{1}{2}$ to 3 -inch jaw with elamp base and some sizes in both elamp and swivel base designs.

All front jaws are made of high grade semi-steel and the back jaws of best quality gray iron. Some sizes have steel plates inserted in the back jaws. These are particularly desirable for jewelers, die makers and key filers who will use the vise for clamping a great many pieces of the same size.

The serews are turned from bar steel and have lathe cut threads.
All Champion Vises are finished in a bright red baking enamel and the jaws, serews, slides and anvils are highly polished.

Sizes 112 to 120 inelusive are packed two in a cardboard box; all other sizes in individual boxes.

## BONNEY IMPROVED FARMERS' VISES

## Straight Jaws

These Vises have hardened tool steel jaws and swivel bases. The jaws have a partieularly large range of openings. They are all machined aceurately to a close fit and have steel lathe eut serews. The swivels are operated by a malleable iron handle whieh works on a nut. The adjustment of the swivel base ean be made in any position and is aceurate and positive.

The vises are finislıed in a bright maroon enamel and the jaws and anvils are highly polished.

| No. | Length of Jaw | Opens, inches | Weight | Price, each |

| 39. | $7^{\prime \prime}$ | $12^{\prime \prime}$ | $210{ }^{\prime \prime}$ | 30.00 |

## BONNEY AJAX MACHINISTS VISES

## BOX SLIDE SWIVEL BASE

Ajax Machinists Swivel Base Vises are of the same general design as the stationary Machinists Vises, but have a large strong swivel base which is adjusted by a hand nut. This method of adjustment gives no trouble and is very desirable.

| No. | Width of Jaw | Opens | Weight | Price, Each |
| :---: | :---: | :---: | :---: | :---: |
| 880. | $2^{\prime \prime}$ | $9^{\prime \prime}$ | 12 lbs. | \$ 5.00 |
| 890 | $2 \frac{1}{2}^{\prime \prime}$ | $2{ }^{\frac{3}{4}}{ }^{\prime \prime}$ | 20 " | 6.00 |
| 900. | $3^{\prime \prime}$ | $4 \prime$ | 28 | 7.50 |
| 910 | $3 \frac{1}{2}{ }^{\prime \prime}$ | $5 \frac{1}{2}^{\prime \prime}$ | 38 | 8.75 |
| 920. | $4^{\prime \prime}$ | $6^{\prime \prime}$ | 50 | 10.50 |
| 930 | $4{ }^{1 \prime \prime}$ 。 | $7{ }^{\prime \prime}$ | 68 | 12.50 |
| 940 | $5{ }^{\prime \prime}$ | $8^{\prime \prime}$ | 85 | 16.00 |
| 950 | $5{ }^{\frac{1}{2}}{ }^{\prime \prime}$ | $9^{\prime \prime}$ | 115 | 22.00 |
| 960 | $6^{\prime \prime}$ | $10^{\prime \prime}$ | 15.5 | 30.00 |
| 970 | $7^{\prime \prime} . .$. | $12^{\prime \prime}$ | 235 | 42.50 |

Ajax Woodworkers' Vises are similar in construction to Ajax Machinists Box Slide Vises. The jaws are very thin and flat. The steels inserted in the jaws are smooth to prevent scarring material held in the Vise.

These Vises can be turned in any position on the swivel base parallel with the floor and are locked by a turn of the hand nut. The grip is positive and swivel adjustment cannot slip.

| No. | Width of Jaw | Opens | Weight | Price, each |
| :---: | :---: | :---: | :---: | :---: |
| 990. | $4^{\frac{1}{4 \prime}}$ | $9^{\prime \prime}$ | 50 lbs. | \$11.50 |

## BONNEY IMPROVED COACHMAKERS' VISES

## With Straight Jaws

Bonney Coachmakers' Vises are very simitar in pattern to Bonney Improved F'armers' Vises. The difference exists only in the width of the face of the jaws and in the position of the jaws in relation to the main screw. The jaws of these Coachmakers' Vises are extended over the center of the screw on onc side, thus furnishing a strong and secure grip for long pieces which would extend below the surface of the bench.

Main sercws are steel with lathe cut threads and swivel adjustment is the same as on Bonncy Farmers' Vises.

## THE GIPSY COMBINATION ANVIL VISE AND DRILLING MACHINE

The Gipsy Vise combines four different tools-Anvil, Straight Jaw Vise, Pipe Vise and Drill Press. It is the handiest tool made, for general repair work on the farm or raneh. Also a very useful tool for general repair work in garages.

The Anvil is 7 inches ligh, 12 inehes long and has 4 inch face. The Vise Jaws are $5 \frac{1}{2}$ inehes wide and open 8 inches. The Pipe Jaws have a eapacity from $\frac{1}{2}$ ineh to 2 inch pipe. The Drill Spindle is made for square shank drills and ean be removed when not in use.

$$
\text { Price Each - - - - - - - } \$ 10.00

Weight each, 52 lbs.
Finished in green enamel.

EXPORT PACKING

| No. to Case | Net Weight | Gross Weight | Measurements |
| :---: | :---: | :---: | :---: |
| 2 | 104 lbs. | 125 lbs. | $22^{\prime \prime} \times 9 \frac{1}{2}^{\prime \prime} \times 15 \frac{1}{2}^{\prime \prime}$ |

BONNEY INDISPENSABLE LATHE DOGS

Indispensable Lathe Dogs are made of semi-steel eastings and are earefully assembled to a close and accurate fit. The bosses are sufficiently large to allow retapping should this be necessary. The serews have U. S. Standard threads and dog points. They are carefully hardened to prevent wear.
One of the advantages of Indispensable Lathe Dogs is that a set of three will do all the work of sixteen Heary Steel Dogs. This means a great saving as the mechanic need not spend his time looking for the proper size for his work.
Another advantage is that Indispensable Lathe Dogs ean be attached to the work after it is centered on the lathe. This means a great saviug in time on delicate work.

Indispensable Lathe Dogs are warranted against breakage or against defects of material or workmanship.

PRICE LIST
